MOISTURECOT is an elegant material for all season and is very gentle on your skin.

It is made from organic cotton and rare fiber "Cupro" which is produced by Asahikasei.Corp. in JAPAN.

Organic cotton has been cultivated and harvested on the clean land with no any agricultural chemical for at least 3 years.

You can choose from our two kind of MOISTURECOT yarn.

MOISTURECOT *Classic*

This type of yarn is mixed by Shankar6 Organic Cotton and Cupro. Shankar6 is Indian original hybrid cotton, cultivated in west India. By using manual method to pick up cotton, this fiber is less damaged than machine pick up. Hand picking Cotton fiber can keep its nature and softness.

Cupro is made from Cotton Linter. It have advantage in moisture management as we called : " Moisture Absorbing and evaporating fiber". Cupro and Cotton are compatible with each other. You can dye them easily together.

MOISTURECOT-Classic is mostly general versatility material.

MOISTURECOT *Elegant*

This yarn is mixed by DCH32 Organic Cotton and Cupro. DCH32 is Indian original hybrid Long Staple fiber cotton, cultivated in south India. by using manual method to pick up cotton, this fiber is less damaged than machine pick up. Hand picking Cotton fiber can keep its nature and softness.

Cupro is made from Cotton Linter. It have advantage in moisture management as we called : " Moisture Absorbing and evaporating fiber". Cupro and Cotton are compatible with each other. You can dye them easily together.

We also use special spinning method for this yarn, to make it become silky luster ,got clean surface and an excellent drape.

MOISTURECOT-Elegant is higher-grade material.

We can give GOTS and OCS certificate upon request.

Notice: Even though we handle all spinning process with care,however, there is possibility to have few contamination in the yarn. We appreciate your understanding on this issue.

Cupro is a breathable fiber that quickly absorb moisture and release it to the outside. Thus Bemberg effectively reduces clinging and interior dampness.

	Moisture Contents (%)	MOISTURECOT Single with Spandex (%)	Organic Cotton Single with Spandex (%)
Absorbs Moisture	20°C • 90%RH	20.9	17.8
	20°C • 65%RH	7.5	6.2
	Difference between 20°C • 95%RH and 20°C a65%RH	13.4	11.6
